# BRANDON SANTOR

Geospatial research & scientific software

emp1241.github.io

Texas A&M GIST undergraduate, geospatial software developer, and Marine Corps veteran. Builds tools connecting original sources, spatial data, and reproducible research workflows.

## RESEARCH & SOFTWARE EXPERIENCE

**Research Assistant & Software Developer | Torbenson Lab**

March 2026-present | Paid appointment since June 2026

Created Tree-Ring Atlas Explorer (TRAE), including reviewed imports, site-to-climate matching, provenance, and reproducible exports. Derived, cleaned, organized, and exported data for a co-authored manuscript in preparation.

**Project Lead | NWSW Spatial Evidence Workbench**

Fall 2026-present | Texas A&M GEOG 476 GIS Practicum

Owns application development, integration, operation, and maintenance; coordinates research contributions. Built evidence intake, explicit review states, spatial database integration, and version-aware investigation exports.

## SELECTED INDEPENDENT SOFTWARE

**Thermal Vent Atlas Explorer (TVAE)**

Independently developed an online/offline WebGIS from Sylvan Lab requirements, with imports, filtering, measurement, saved state, and provenance-preserving exports. Delivered for lab research and education.

**Research Architect Framework / PhalAInx**

Creator and principal designer of a provider-neutral research planning and handoff framework. Directed persistent context, methodological design, and human review. Framework and desktop prototype remain in development.

## TECHNICAL CONSULTING & MILITARY EXPERIENCE

**Independent Esri GIS Technical Consultant & Instructor**

February-May 2026

Audited seven graduate GIS modules and rebuilt six workflows into 189 pages of illustrated manuals.

**United States Marine Corps | Infantryman & Logistics NCO**

2011-2013

Personnel coordination, accountability, inventory, and logistical support.

## EDUCATION & TECHNICAL SKILLS

**Texas A&M University | B.S. Geographic Information Science & Technology**

Expected May 2027

Python; JavaScript; TypeScript; PostgreSQL / PostGIS; ArcGIS Pro; QGIS; GDAL; Leaflet; HTML / CSS.
